## NUTRITION GUIDE

### [ Carnivore | Endomorph ]

Each somatotype favors a particular ratio of macronutrients as determined by your genetics. While the majority of us are a combination of a couple body types, our nutrition greatly influences our ability to build muscle or lose fat. By following the body type you most closely associate with can help you gain the edge in helping improve your fitness!

This body type prefers the following percentages of their total calories as your meal plan was structured off these ratios.

| Macronutrient | Percentage of Calories |
|---------------|------------------------|
| Protein       | 35%                    |
| Carbs         | 25%                    |
| Fats          | 40%                    |

# Welcome

Welcome to the MA45 program! On this 6 week journey together we'll combine both the workouts and meal plan to help you lose body fat, build muscle, and become stronger!

The menu's for each week changes as you progress to help provide more variety and the recipes are meant to be simple and easy to follow! Each week comes with a handy grocery list to help you grocery shop and prepare for the upcoming week. I personally suggest meal prepping as many of the healthy meals as you can to help you stay the course! I typically like to spend Sundays and Wednesdays as my prep days to keep the fridge stocked with ready to eat meals

## How to Follow

I suggest to see best results to complete your workout in the morning to help energize your day! I want everyone to follow at least a 14 hour FAST each and every night so no late night snacking!! That means if you have your last meal at 6 pm to hold off from eating your pre workout until at least 8 or 9 am the next morning.

### Sample Routine

**Wake Up:** drink water to stay hydrated. Try to drink as much water as you can through the day

**30-60 min Before Working Out:** eat a piece of fruit to help break your fast with either espresso, black coffee, or TRU Energy to help energize you before your workout

*Complete your workout*

**Post Workout:** Enjoy your breakfast smoothie as the first big meal to fuel your body

**Lunch/Snack/Dinner:** try to space your next meal at least 2 or more hours after your smoothie. You can enjoy the snack before or after dinner. After your last feeding begin your 12 hour fasting routine in which you should only drink water or take your vitamins!

**Begin 14 Hour Fast until next morning**

# WEEK 1 MEAL RECIPES

## Chicken Fajitas • Makes 4 Servings

### INGREDIENTS

- 1/2 Tsp Black Pepper
- 2 Tbsp Chili Powder
- 1 Tsp Smoked Paprika
- 1 Tsp Garlic Powder
- 1/2 Tsp Dried Oregano
- 1/2 Tsp Red Pepper Flakes
- 16 Oz Boneless Skinless Chicken Breasts
- 1/4 Cup Coconut Aminos or Reduced Sodium Soy Sauce
- 3 Medium Bell Peppers, Cut Into Thin Strips
- 1 Medium Onion, Thinly Sliced
- 2 Tbsp Avocado Oil or Extra Virgin Olive Oil

### INSTRUCTIONS

1. In a bowl, mix together the seasoning ingredients.
2. Julienne veggies and set aside.
3. Wash and slice chicken into thin strips. This makes more flavorful chicken as there's more surface area for seasoning to marinate chicken. Place in a large bowl. Sprinkle with the dry seasoning mix. Use your clean hands to rub the spices into the meat. Wash your hands thoroughly.
4. Heat 1 tablespoon of the oil in a large, deep skillet over medium-high heat, about 2 minutes. Add the bell peppers and the onions. Cook, stirring often, until just tender for a few minutes.
5. Remove the veggies then add the remaining oil plus chicken and cook fully. You may break batch in half to allow chicken to have a sear instead of boiling in its own water.
6. Return the vegetables to the skillet. Stir-fry everything together 1-2 more minutes, until heated through.

4. Finely chop the spinach into very small bits, then add it to the mixture. With clean hands mix until well combined, being careful not to compact the meat. Shape the mixture into 12 meatballs and arrange in the prepared baking dish making sure they do not touch.
5. In another bowl, whisk together the remaining olive oil, 1 tbsp water, and tomato paste. Mix until smooth. Brush over the top of the meatballs.
6. Bake the meatballs for about 18-22mins or until fully cooked. Weigh your meatballs for servings after being cooked.
7. To save your the trouble, get store bought pasta sauce. When you're looking at the nutritional facts make sure it contains no fat. One can add fresh basil or more oregano for a more tasty pasta sauce. You can pour over one serving of pasta sauce over the meatballs or cook your already boiled pasta in the marinara sauce. Place meatballs on top and enjoy.
